

MEHRZAD SAEEDI

Founder, Metrico · Construction operator · GIS & urban planning specialist

Email: mehrzad.saeedi@gmail.com Company: hello@metrico.app Mobile: +98 918 668 8850 Tel: +98 87 3426 0935

Nationality: Iranian · Born 12 September 1985 LinkedIn

PROFESSIONAL SUMMARY

Geologist (MSc petrology) and municipal GIS / urban specialist who later built and managed commercial property operations, then moved fully into construction as investor, supervising engineer, project manager, and site superintendent. Approximately ten years across residential and commercial projects inform Metrico — a live bilingual SaaS / PWA for unit sales, installments, site finance, and owner updates. Combines field domain depth with product ownership; currently founding Metrico toward an Estonian / EU company base.

CONSTRUCTION & FOUNDER EXPERIENCE

Founder — Metrico (construction operations SaaS / PWA)

Present · Live product · English / Persian

- Owns product direction, domain model, and go-to-market for mid-size developers and contractors.
- Active daily user of the product on a live construction project; iterates from real site pain.
- Building toward Estonian / EU company registration after Startup Committee recognition; English-first, then German / DACH localization on the roadmap.

Construction project manager & site superintendent; builder / investor

≈ 4 years (founder statement; complementary to earlier printed CV timeline) · Residential & commercial

- Day-to-day workshop and site supervision as project manager, and as builder/investor on own projects.
- Hands-on ownership of unit status, buyer installments, progress reporting, and multi-project coordination — the workflows Metrico digitizes.

Investor · Supervising engineer · Project superintendent

≈ 10 years spanning these roles (founder statement; market-evidence framing)

- Investor on construction projects; supervising engineer (formal build-quality oversight); superintendent for delivery across sites.
- Estimated that Metrico already addresses roughly 70% of prior fragmentation, paper process, and multi-project control gaps on his own work.

SELECTED PROFESSIONAL ROLES

Manager — Baneh Aftab Derakhshan Shopping Center

Full time · 2016–2020 · Baneh, Iran

- Operational management of a commercial shopping center — tenant, facilities, and day-to-day business oversight.
